

Claire McCaskill Inspires People

It is time for a Change of the Guard in Missouri. Claire McCaskill knows the statewide issues and she inspires people to do good things.

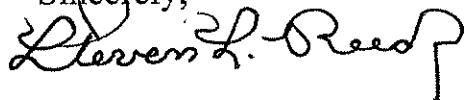

As a civic activist I mailed campaign committee papers to the Missouri Ethics Commission on Feb. 7, 2003 to form Citizens Supporting McCaskill for Governor. I have seen her speak at Jackson Days in Springfield and she really inspires people. As State Auditor she is a real watchdog of the government for the people.

Missouri has lost more jobs in the last few years than any state in the nation. We need a new "economic team" and administration. McCaskill will work to bring more jobs and business to the state including higher paying jobs in union labor and high-tech areas and a possible technology park in southwest Missouri. We MUST grow our economy to solve state budget problems and build a better Missouri for the citizens.

The knowledge of statewide issues, economic growth, the desire to lead, people skills, and her inspiration will propel Claire McCaskill to the Governor's office.
